

Breastfeeding Peer Counselor Program Bi-Monthly Conference Call

February 26, 2014

Agenda Items

Chris Fogelman – Who makes BPC contacts? Entering information for a BPC who is rarely in clinic.

It is the BPC who is making the contacts that are entered on BPC contacts tab. It is set-up so that an aide at the local agency can enter the information if the BPC is not able to do that.

Other staff who provide breastfeeding education and information would document the contact in the manage notes tab.

If the BPC wanted to provide additional information about the contact, she can also document in the manage notes tab.

Chris Fogelman – Reports? Peer Counselor Pending – Prenatal and Peer Counselor Pending – Breastfeeding

Briefly reviewed how the reports can be run. When the option “all participants” is available, select it for a report.

Chris Fogelman – peer counselor contacts missing? Chris will check with Mark on this. Other questions were asked about what really counts. Since a regional conference call among the State Breastfeeding Coordinators is coming up, it is a good time to ask them about how they count contacts.

Other Discussion Issues

Minutes from last meeting – Will send out to BPC for review and comment before posting to make sure they are complete.

Next call April 23, 2014 9:00 am to 10:00 am
